20 pts Questions **Cognitive: (Wow, I learn?... Ok that is deep!)**

- Why is this week's topic important for teamwork?

Communication is so important to teamwork. If we do not communicate then people will not be on the same page. Best case scenario things just work out. Most likely is could devolve to a fight or people hurting each other on accident.

- How do plan on contributing to the team, besides completing your tasks?

My main plan is to make sure that my team understands what I am trying to tell them when we are discussing our Acorn projects.

- How does your experience relate to other experiences you have had?

In class we did an interesting activity where we had people try to communicate, but no clarifying questions were allowed and they tried to make similar patterns on the desk. I thought it was a lot like when I worked in the sprinkler store, I would tell my coworkers I was leaving to clean the bathrooms, then they would be upset because they thought I just left. Due to no clarification taking place, I would get chewed out.

- How does your experience relate to other classmates' experiences?

I would say my experience in class relates to my classmates because I know we have all had miscommunications, but with a new out look it should help us both become better communicators.

- If this was a religion class, how would you relate this week's topic to the gospel?

I would relate the need to communicate with each other to the need to communicate with God through daily prayer. If we are not constantly seeking revelation and asking questions we will be left confused and upset.
