

Title Week 7 Reflection

20 pts Questions Cognitive: (Wow, I learn?... Ok that is deep!)

- Why is this week's topic important for teamwork?

Commitment is extremely important to teamwork because it is what will actually cause us to “show up” and do what we are expected to get done for the team. Without it the other aspects would be fruitless.

- How do plan on contributing to the team, besides completing your tasks?

I am going to honestly take responsibility for any mistakes that I make in the upcoming acorn projects and not try to excuse myself from my mistakes.

- How does your experience relate to other experiences you have had?

I recently had a cool experience where I absolutely missed an assignment that I had committed to do. I was able to own up and say “my bad that was all me” I was able to make it up later and that was commitment in action.

- How does your experience relate to other classmates' experiences?

My experience with the need to be committed will relate to my fellow teammates experiences because it will allow us to be more merciful to one another and create team unity.

- If this was a religion class, how would you relate this week's topic to the gospel?

I would relate the need to be committed to how Jesus Christ asks us to follow His commandments. When we are accountable and repent when we make mistakes that we will be forgiven.
