20 pts Questions **Cognitive: (Wow, I learn?... Ok that is deep!)**

- Why is this week's topic important for teamwork?

The bottom line of teamwork is that the team is working. If we are not being professional then the work will not take place. We all want to find success in our teams. That is why being professional is important.

- How do plan on contributing to the team, besides completing your tasks?

I think the way I can start helping the team more is by using my professionalism. I am regularly a little grumpy coming into class right after lunch. I also could take the time to reach out to the team and show that I appreciate them more.

- How does your experience relate to other experiences you have had?

I was able to have a fun experience when I was working at a pharmacy where they were talking to me all about how important it is to be professional. I was able to watch a fellow employee get in trouble with the boss due to their lack of professionalism and that led to me being particularly cautious when I am in a work environment.

- Tell me about what you taught someone? And what did they learn, that they didn't know before?

This week I was able to teach a friend about how important it is to be professional in our relationships. He has been not very professional when it comes to dating and it bit him back this week. It gave me a fun teaching opportunity. I think he now understands the importance of keeping promises and expectations.

- If this was a religion class, how would you relate this week's topic to the gospel?

The new commandment "Love one another" A huge part of professionalism is just treating others how Christ would treat them.
