

## Week 12 Reflection

---

20 pts Questions **Cognitive: (Wow, I learn?... Ok that is deep!)**

- Why is this week's topic important for teamwork?

Loyalty is extremely important, if we are not loyal to each other then the whole purpose of communication and teamwork is undermined with the lack of trust.

- How do plan on contributing to the team, besides completing your tasks?

I plan on showing my loyalty to my team, by helping my teammates where they are lacking because I care about them as much I care about my won grade in theory.

- How does your experience relate to other experiences you have had?

When I worked in the sprinkler store I had a couple coworkers who were extremely loyal to the company and would work and do there best when they were there. The employees that didn't care, would undercut the company by not even following protocol.

- How does your experience relate to other classmates' experiences?

My experience has helped me develop a desire to be loyal to those I work with, and hopefully it will resonate with my classmates experiences to lead to strong team work.

- If this was a religion class, how would you relate this week's topic to the gospel?

I would relate this topic to being loyal to ourselves in our religions commitments, ie. Covenants and committing to callings.
